

Lean Six Sigma - Green belt

Business process management

23-25 June 2020

Dubai, UAE

KPMG Business Academy

Key learning benefits:

Improved managerial and leadership abilities

Knowledge needed to adopt a structured, disciplined and data-driven approach

Develop the ability to formulate fact-based decisions in mitigating identified pain areas

Course overview

This three-day course has been designed to provide participants with the knowledge and skills to contribute to their organization's success. This training also seeks to help participants ensure that processes in place yield the desired results while using the Lean Six Sigma methodology.

Meet your course leader

Vaibhav Agarwal

Associate Director, Business Excellence
KPMG

Vaibhav is a key member of the Business Excellence practice within KPMG and has wide experience in training and consultation on Lean Six Sigma methodologies, process design and re engineering, value stream mapping and various other quality tools.

He has over 11 years experience and has coached several engagements and mentored numerous projects for core functions of production, as well as non core functions of finance, HR, administration, across various sectors.

Course key learning

This course provides participants with an understanding of how to:

- Use data to draw business conclusions
- Analyze current trends and metrics
- Conduct in-depth cause analysis and initiate performance improvement
- Use statistical tools
- Deliver processes that contribute to the growth of organizations
- Devise ways for businesses to be more cost effective and competitive

Who should attend

This training is highly recommended for professionals involved in:

- Process control and quality
- Project management
- Improvement initiatives.

It is also suitable to aspiring business leaders and those who have an interest in data analytics, research and process re-engineering

The training is suitable for professionals from various sectors, including logistics, manufacturing, healthcare, hospitality, banking and finance, defense, education, auto-mobile and telecom.
